To describe how Casa Reom Trust was doing well, supporters used the following catch phrases caring, nurturing, education and training provision that leads to an independent lifestyle, hands on action, support for children, financial support for buildings, just about the right amount of information communicated and various types of support.

Respondents felt the Trust could do better in the following areas: could provide a lot more of the same support to the boys if they had sufficient resources, keep supporters more informed about the boys through regular life stories, improve communication between staff in Mozambique and Casa Reom Trustees so that supporters can be given a true and complete picture of what is really going on at the Centre and the country at large.

Hopefully, when existing supporters are kept well informed they can assist as ambassadors of both Casa Reom Trust and the Centre in Mozambique leading to improved visibility and more funding.
